## ABOUT COURSE

The Induction/Refresher programme is being organized to bring together experts in the field of research methodologies so as to be acquainted with the basic concepts in this field. Research is an art of scientific investigation & it becomes one of the academic activity. Now a day's government also promotes & emphasizes on research work. Research methodology is a way to systematically solve the research problem. Now a days it is important to know the research methods, tools, techniques & methodologies for researchers. This program aims at providing an opportunity for participants to enrich the knowledge about research topic selection, types & techniques of research, research funding, patents in IPR, research ethics & application oriented research. The research task remains incomplete till the report has been written, submitted & published. The objective of this course is also to focus on the various issues & plagiarisms in journals.

## COURSE CONTENTS

• Introduction to Research methodology, Issues & Research topic selection.
• Formulating a research problem
• Literature survey.
• Appropriate research method for conducting research.
• Data collection and data analysis tools for research.
• Selecting appropriate statistical and mathematical tools for data analysis.
• Techniques of interpretation and report writing.
• Awareness of plagiarism.
• Paper writing and publishing.
• Proposal writing and research funding.
• Application oriented research- a case study.
• Patents and copyright laws.

*(Note: A test will be conducted at the end of the programme and the certificates will be issued only to participant those who qualify test.)*
