Dated: 8th May, 2015

D.O. No. 8-23/2013-TEL (pt.)

Dear Sir,

Government of India has announced 'Digital India', which is a Programme to transform India into a digitally empowered society and knowledge economy. It aims at changing the manner in which governance and public services are provided to citizens. 'Digital India' also aims to 'transform India into a digitally empowered society and knowledge based economy', the focus being transformative, to realize IT (Indian Talent) + IT (Information Technology) = IT (India Tomorrow). The Programme also aims at delivering good governance to citizens by synchronized and coordinated engagement with both Central and State Governments. Delivery of services through e-governance represents a paradigm shift, which will involve Government Departments/Officials changing the way they work and tools they use to enable a faster and more efficient delivery.

2. 'Digital India' has spread across three vision areas i.e. 'Digital Infrastructure as a Utility to Every Citizen', 'Governance & Services on Demand' and 'Digital Empowerment of Citizens'.

3. To deliver the message of 'Digital India' to citizens and to showcase Government's initiatives in the area of e-Governance, a formal launch of this Programme, spread over a week, is being organized. It is expected that the formal launch will take place shortly and dates will be communicated accordingly.

4. A series of activities focused around the existing digital service delivery platforms would be organized to provide contextual and engaging information about 'Digital India' to the citizens. University/College and Technical/Management Institutions' students and faculty members are key target groups to be engaged in activities on the available online platforms (NKN, NMEICT, AICTE, MyGov etc.) during the 'Digital India Week' (DIW). Their engagement will not only disseminate information about the existing digital services/platforms, but also increase usage & sharing of digital resources.

5. It has been envisaged that all NKN/NMEICT connected Universities/Colleges and Technical/Management Institutions will take part in the DIW (broadcast/ streaming of IEC videos and other audio-visual content on Digital India etc.). Students/faculty members from adjoining Universities/Colleges and Technical/Management Institutions not connected under NKN/NMEICT are to be invited to participate in the events/activities of the nearest University/College and Technical/Management Institution where such facilities are available. Various activities such as competitions for students and faculty members, sessions on digital services, Digital India Fest etc. are to be conducted during the DIW.

सर्व शिक्षा अभियान
सब पढ़ें सब बढ़ें

6. Keeping in view the above, I would request you to peruse the enclosed note and issue necessary instructions to all the Universities/Colleges and Technical/Management Institutions to start preparations for the DIW activities. It is also requested that information sought in the enclosed note be provided at the earliest and a 'Nodal Officer' be nominated, in the State for the DIW. The name and contact details of the Nodal Officer may be communicated to this Ministry and Smt. Caralyn Khongwar Deshmukh, Director, Capacity Building, National e Governance Division, Department of Electronics & Information Technology (DeitY) at carakhongwar.edu@nic.in.

With regards,

Yours sincerely,

Encl: As above.

Dr. Sanjay Chahande,
Principal Secretary,
Technical & Higher Education Department,
Government of Maharashtra,
Mantralaya,
4th Floor, Room No. 411,
Annexe Building,
Mumbai-400032

1 About Digital India

Digital India is an Umbrella Program that covers multiple Government Ministries and Departments. It weaves together a large number of ideas and thoughts into a single, comprehensive vision so that each of them is seen as part of a larger goal. Each individual element stands on its own, but is also part of the larger picture. Digital India is to be coordinated by DeitY and implemented by the entire Government. One of the key characteristics of Digital India is to have a common branding in order to ensure highest transformative impact. It is the responsibility of the Department of Electronics & IT (DeitY) to ensure this common branding for the Digital India Program.

This umbrella program, approved at the level of Hon'ble Prime Minister, weaves together a large number of ideas and thoughts into a single comprehensive vision of making technology as the key enabler for transformative changes in the delivery of public services and participative governance in the country. The impact of the Digital India Program will be wide-ranging. For citizens across the country, Digital India will have a transformational impact which will improve the delivery and greater access to information and e-services.

1.1 Vision of Digital India

The vision is centred on three key areas:

- *Vision Area 1: Digital Infrastructure as a Utility to Every Citizen includes:*
 - High speed internet as a core utility
 - Cradle to grave digital identity - unique, lifelong, online, authenticable
 - Mobile & Bank A/c enabling participation in digital & financial space
 - Easy access to a Common Service Centre
 - Shareable private space on a public cloud
 - Safe and secure Cyber-space
- *Vision Area 2: Governance & Services on Demand includes:*
 - Seamlessly integrated across departments or jurisdictions
 - Services available in real time from online & mobile platform
 - All citizen entitlements to be available on the cloud
 - Services digitally transformed for improving Ease of Doing Business
 - Making financial transactions electronic & cashless
 - Leveraging GIS for decision support systems & development
- *Vision Area 3: Digital Empowerment of Citizens includes:*
 - Universal Digital Literacy
 - Universally accessible digital resources
 - All documents/ certificates to be available on cloud
 - Availability of digital resources / services in Indian languages
 - Collaborative digital platforms for participative governance
 - Portability of all entitlements through cloud

1.2 Pillars

There are 9 pillars of growth areas under the Digital India programme. Each of these area is a complex programme in itself and cuts across multiple Ministries and Departments.

- Broadband Highways

- Universal Access to Mobile Connectivity
- Public Internet Access Programme
- e-Governance – Reforming government through Technology
- eKranti – Electronic delivery of services
- Information for All
- Electronics Manufacturing– Target NET ZERO Imports
- IT for Jobs
- Early Harvest Programmes

1.3 Expected Impact of Digital India by 2019

- Broadband in 2.5 lakh villages, universal phone connectivity
- Net Zero Imports by 2020
- 400,000 Public Internet Access Points
- Wi-fi in 2.5 lakh schools, all universities; Public wi-fi hotspots for citizens
- Digital Inclusion: 1.7 Cr trained for IT, Telecom and Electronics Jobs
- Job creation: Direct 1.7 Cr. and Indirect at least 8.5 Cr.
- e-Governance & eServices: Across government
- India to be leader in IT use in services – health, education, banking
- Digitally empowered citizens – public cloud, internet access

2 Digital India Week

To deliver the message of the Digital India to citizens and to showcase the Government's initiative in the area of e-Governance, a formal launch of this program, spread over a week, is being organized. A series of activities focused around the existing Digital Service Delivery platforms would be organized to provide contextual and engaging information about Digital India to the citizens. National e-Governance Division (NeGD, an autonomous business division within Media Lab Asia, under the Ministry of Communication & Information Technology, Government of India) is the implementing agency for Digital India Week.

2.1 Objectives & Strategy

- Effectively deliver the message of Digital India to all citizens
- Expand visibility of Digital India by way of effective branding across various platforms with special focus on new media and public interface touch points.
- To establish credibility of message by ensuring value proposition in terms of demonstration of service delivery to citizens by converging existing and new services, usage of digital infrastructure under Digital India
- Sustained connection with people by identifying and engaging serious stakeholders through ICT platform and increasing the demand for e-services.
- Communication in vernacular languages as far as possible

2.2 Approach to Digital India Week

- Build-up Pre-event buzz through print and electronic media
- Pre-event activities including Volunteer Registration
- Invite citizens for events at various locations
- Inform and educate about eServices and benefits
- Value addition through functional digital & financial literacy, Swachh Digital India
- Collect participant database and feedback
- Sustained engagement
